Oxidation Number Chart

Name: _____ Block: ___

Complete the following chart. If the element does not typically form ions, leave the last two columns blank for it.

Element	Atomic Number	Number of Protons (+)	Number of Electrons (-)	Number of Valence Electrons	Type of Ion Formed (+ or -)	Oxidation Number
Hydrogen						
Helium						
Lithium						
Beryllium						
Boron						
Carbon						
Nitrogen						
Oxygen						
Fluorine						
Neon						
Sodium						
Magnesium						
Aluminum						
Silicon						
Phosphorus						
Sulfur						
Chlorine						
Argon						
Potassium						
Calcium
