Wall Area Worksheet			
	House Design:	CAPE HOUSE	

Using the method we described in class, compute the wall areas for each separate room or area of the first floor of the Cape House. <u>Attach a colored drawing that shows the boundaries of each room or area</u>. Both sides of each wall should be included!

Floor 1 _____ cm *On The Drawing* = _____ ft *In Real Life*

Room or Area	On The Drawing (cm)				In Real Life	
	+ +	+ +	+ +	= cm	ft x	8 ft = area
Living Room						
Stairs						
Entry Hall						
Bathroom						
Kitchen						
Outside Walls
